SKILLS

- **Languages:** Python, C, C++, Java, JavaScript, TypeScript
- **Frontend:** HTML, CSS, Tailwind CSS, ReactJS, Framer Motion, NextJS
- **Backend:** NodeJS, ExpressJS, RESTful APIs, Spring Boot, JWT, OAuth
- **Databases:** MongoDB, PostgreSQL, Supabase
- **Tools/Platforms:** Redis, RabbitMQ, Docker, GitHub, Cloudinary, Vercel, Render
- **Soft Skills:** Focus, Quick Learner, Problem Solving, Adaptability

PROJECTS

- Hospital Management System | Full-Stack Healthcare Management Platform | [Github](#)** May 2026
- Built a full-stack Hospital Management System to streamline hospital operations, including doctor management, patient records, medicine inventory, and billing receipt generation through a centralized and user-friendly interface
 - Designed RESTful APIs, complete CRUD operations, and responsive frontend pages for managing doctors, patients, medicines, and receipts, ensuring smooth workflow and efficient data handling.
 - Integrated PostgreSQL database with Spring Data JPA/Hibernate for secure and scalable backend data management, while building an interactive React-based frontend with seamless routing and optimized performance.
 - Tech Stack: React.js, Spring Boot, Java 17, PostgreSQL, Spring Data JPA, Hibernate, Maven, Tailwind CSS
- Scalable Social Media Platform | Microservices Architecture | [Github](#)** March 2026
- Architected a scalable microservice platform with five independent services and a centralized API Gateway, ensuring reliable delivery, modularity, and high availability across production environments.
 - Engineered high-performance backend systems using Redis caching to reduce API latency by 92%, while leveraging RabbitMQ for asynchronous communication and consistent event-driven data updates across services.
 - Containerized the complete application using Docker and Docker Compose, enabling consistent environments, streamlined deployments, and efficient service orchestration across development and production systems.
 - Tech Stack: Node.js, Express.js, React.js, MongoDB, Redis, RabbitMQ, Docker, JWT, Tailwind CSS.
- Healthcare Platform | AI-Driven Symptom Analysis System | [Github](#) | [Live](#)** January 2026
- Implemented an AI-driven symptom analysis engine using Transformers.js and cosine similarity to predict medical specialties from natural language descriptions, improving user-to-doctor matching accuracy by ~85%.
 - Designed a secure full-stack platform with Google OAuth integration, role-based access control, and review system with hierarchical replies, increasing user trust and engagement by ~60% while ensuring secure interactions.
 - Developed a responsive healthcare portal using React and Node.js with Cloudinary for media management and MongoDB for data persistence, improving page load performance by ~50%.
 - Tech Stack: React.js, Node.js, Express.js, MongoDB, Transformers.js, OAuth, Cloudinary, Tailwind CSS.

TRAINING

- Summer Training | Full Stack Development In React and Node | [Certificate](#)** June 2025 - July 2025
- Completed full stack development training focused on building dynamic web applications using React and Node.js.
 - Created end-to-end features including front-end interfaces, RESTful APIs, and efficient database integrations.
 - Strengthened skills in component-based design, state management, authentication, and modern deployment.

CERTIFICATES & CERTIFICATIONS

- React JS Development - Self-Paced by GFG | [Certificate](#) June 2025
- SQL(Basic) by HackerRank | [Certificate](#) June 2024
- Introduction to Python by Infosys | [Certificate](#) January 2024

ACHIEVEMENTS

- **Solved 350+ coding problems** across LeetCode and GFG. March 2026
- Achieved **100-day LeetCode badge** for consecutive daily problem solving. September 2025

EDUCATION

- **Lovely Professional University** Punjab, India
- *Bachelor of Technology - Computer Science and Engineering; CGPA: 6.92* Since August 2023
- **Mahendra Savitri College** Bihar, India
- *Intermediate; Percentage: 61%* April 2021 - March 2023
- **Utkramit Madhyamik School** Bihar, India
- *Matriculation; Percentage: 64%* April 2018 - March 2020
